

IT'S A MATCH!!!

Below is a table to help you think about what is important to you and to find a candidate that best matches your position. You can make copies for each family member. Make as many copies as you need for more candidates and for more issues that are important to you!

INSTRUCTIONS

First, write your name and the issues important to you in the first column. Next, write each candidate's name at the top of the following columns. Look them up online to see if they agree with you on the issues you've listed. Give them points if they agree and no points if they don't. Now add up those points to see if they're what you expected!
